

## Calves diarrhea

Death from diarrhea is usually due to dehydration and loss of electrolytes, which cause alterations in acid-base balance, usually acidosis, and more generally changes in the biochemistry of the organism.

### Infectious Causes of Calf Scours

- Bacteria
- Viruses
- Protozoa
- Parasites
- Yeasts and molds

### Non-infectious causes of Calf Scours

- Nutrition

✓ Once the calf shows soft feces, the treatment must be given immediately.
