

INNOVATIVE GROUP

Feeding System
For Gestating Sows

Gestal
3G

FREEDOM. SIMPLICITY. RELIABILITY.

- Cheaper than other systems!
- Easy to install and adaptable to any building type or size (new or retrofit)
- Wireless system, 100% autonomous
- Decrease competition for access to feed
- Easier adaptation than ESF (97% of sows teach themselves within 3 days)

INNOVATIVE GROUP

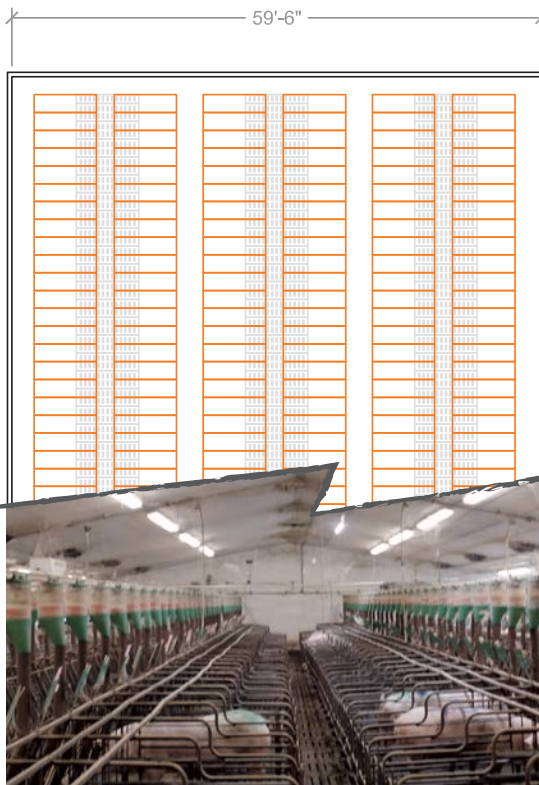

Feeding System For Gestating Sows

Gestalt 3G, the innovative feeding system for gestating sows in groups, offers many advantages compared to other existing systems (ESF, free access stalls and short stalls) not only in terms of sow management, but in animal well-being as well as system cost. This system allows inexpensive individual feeding for sows in groups, diminishes competition for access to feed and **facilitates training** compared to ESF systems.

CONVENTIONAL GESTATION

6 rows of 36 stalls = 216 stalls

TOTAL: 216 SOWS

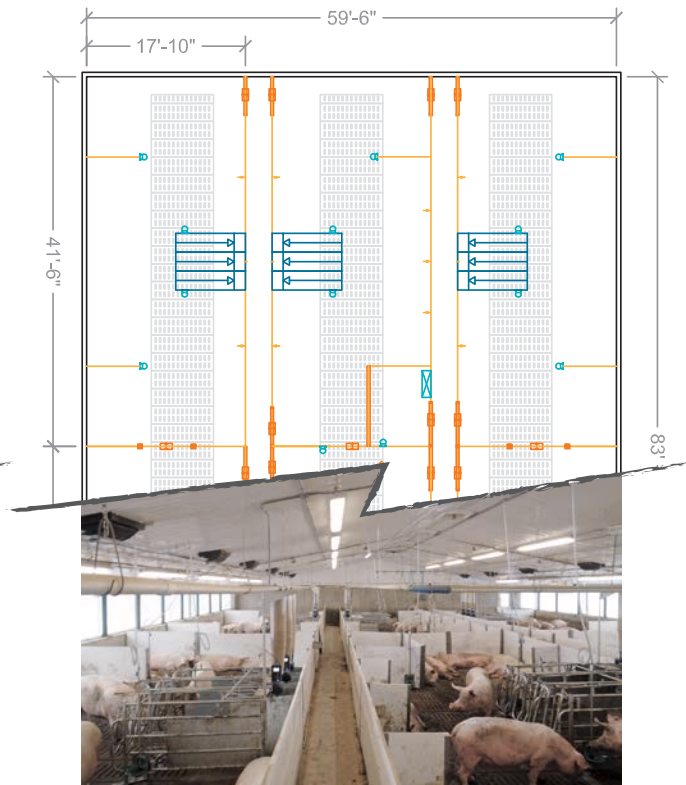

GESTATION WITH

Gestation Pen 1144 sq. ft.
60 sows / 19 sq. ft.
