

numax **Wean**

Numax range piglet feeds (Numax Start, Numax Wean and Numax Link) are designed to enhance high feed intakes from the very early days of a piglet's life. The unique formulation of the feeds provides exceptional results under various field conditions.

nuevo
ANIMAL NUTRITION

DUAL FORM

Numax Wean is provided in a meal form with well-dispersed whole flakes. A meal offers extra benefits over pellets for pigs of young age, because it has been shown to reduce the incidence and prevalence of diarrhea due to reduced liquidity in the gastrointestinal tract. The flakes in **Numax Wean** enhance taste, texture, and appeal of the feed, increasing piglet curiosity. **Numax Wean** is also available in a pellet form.

GUT HEALTH

Numax Wean contains ingredients that regulate gut micro flora, functional fibres and a powerful combination of organic acids with very strong antibacterial activity.

MILK & SUGARS

High levels of lactose from high quality dairy products and simple sugars ensure pigs start eating early and consume large quantities of feed due to the natural sweet taste of **Numax Wean**.

EXTRUDED FULL-FAT SOYBEANS

With very low levels of antinutritional factors, full of highly digestible oil, and highly digestible protein, extruded soybeans are an excellent choice source of protein for piglets.

ZERO ZINC

The **Numax range** piglets feed is designed to tackle the ZnO elimination and enable piglets handle post weaning metabolic disorders. Based on low protein levels but in parallel with a carefully balanced SID amino acid profile ensures high growth rates from the very early stages of a piglets' life. Carefully selected ingredients with high digestibility will guarantee early feed intakes thus proper gut maturation and a healthier digestive truck.

COMPLETE IN ALL

Numax Wean is a complete feed. It contains all required nutrients for suckling and weaned pigs. In addition to balanced levels of energy and protein, it contains the full complement of vitamins, minerals, and amino acids.

KEY NUTRIENTS

Net energy	10.9MJ/kg	SID lysine	1.25%
Protein	17.9%	Calcium	0.75%
Lipids	5.1%	Dig. Phosphorus	0.38%
Fibre	3.1%	Sodium	0.25%

GENERAL FEEDING INSTRUCTIONS

Numax Wean is designed as a follow-up feed to **Numax Start**. Start feeding **Numax Wean** immediately after finishing with **Numax Start**. There is no need to mix the two feeds for the changeover. Allow 4-6 kg **Numax Wean** per piglet until they reach 12kg body weight.
