nufit®

nufit® is an innovative product which has been specifically formulated to prevent lameness in high performing, hyper-prolific sows. It directly benefits the pigs feet and legs by increasing skeletal and bone strength, increasing Calcium absorption and controlling bone mineralization.

nufit® contains a combination of vitamins and minerals to promote healthy hoof growth and a combination of highly efficient natural and synthetic bio-active ingredients with proven antioxidant action and beneficial effect on immunity response.

Key benefits of nufit®:

- Promotes Calcium retention in the skeletal system.
- Improves Vitamin D conversion to its active form which is necessary for Calcium absorption.
- Regulates Calcium and Phosphorus absorption and bone mineralization.
- Promotes healthy hoof growth, preventing cracked and damaged feet.
- Stimulates appetite in high performing, hyper-prolific sows.
- Supports osteoblastic activity for bone development.
- Stimulates natural and sustainable hoof horn growth.
- Decreases inflammatory pressure and boosts immune response.
- Optimising longevity and welfare of the highly productive sow.

Inclusion Recommendation: 5kg / ton of feed

Packaging: Available in 25kg bags
